Foreword

Every individual has a definite personality which distinguishes him from his fellow men, a personality which shines from the eyes of his soul and shows to the world the manliness of his character. The personality of a school is not made up of a superstructure, a building or equipment, but of the personality of the Faculty and the students. Wa-Hi, the Student Government School, is distinct among the High Schools of the State. Its personality is sustained by the loyalty and service of the Faculty, and by the self-control, uprightness, and high ideals of the Student Body.

The members of the 1928 Royal Blue Staff endeavor to portray the personality of Wa-Hi in its characteristics of service, loyalty, leadership, scholarship, fellowship, sportsmanship, and mirth.

Dedication

This 1928 Royal Blue is dedicated with devotion and praise to the Personality of Wa-Hi. This personality is best portrayed in the spirit of the student leaders who uphold the ideal of self control; in the morale of the classes, which uphold the high standards of the school; in the service of the faculty, whose highest aim is the upbuilding of Wa-Hi, and the development of noble men and women; in the loyalty of the Student Court, which faithfully executes the laws of the Student Body; in the Scholarship of the Honorary Societies of the school; in the activities of the clubs; in the sportsmanship of athletics; in the discipline of the R. O. T. C. and in Fellowship and in Mirth.

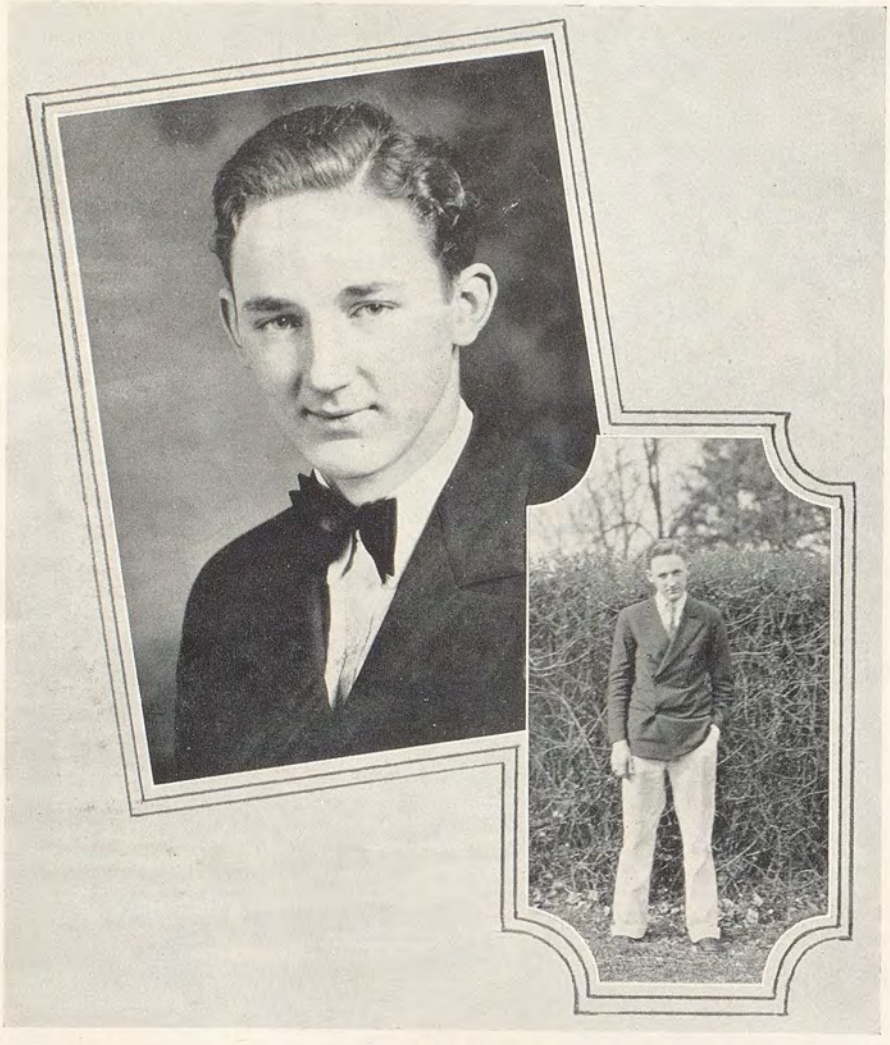
1928 Annual Queen

MARGARET HILL, through the admiration of her fellow students, has won the honor of being Annual Queen. Her personality represents the spirit of Wa-Hi women.



Clark Medalist

Robert Wright, president of the Student Body, by vote of the Faculty and students, has been awarded the Pal Clark Trophy. This honor is bestowed on the student who is the most representative citizen of Wa-Hi.

To have participated in the progress of an institution which endeavors to express democracy, opportunity, and faith in humankind; to discover and stimulate latent power and excellence where appear weakness and unpromise; to awaken intellectual curiosity in the things that abide, and to be

"A happy-tempered bringer of the best
Out of the worst,"

has been and is the incomparable privilege of those whose names are herein inscribed.

Scholarship

To the students of Wa-Hi who have made first things come first in their school work; who have found knowledge and the power of concentration here, and who have designated themselves as true scholars, this section of the 1928 Royal Blue is dedicated.

To Helen May and Walter Ball belong the honor of having the highest scholastic averages of any seniors in Wa-Hi. Helen has an average of 96.2 for her four years at Wa-Hi, proving that she has truly mastered the essentials of her high school education and has put the most important thing first. The four year average of 95.5 for Walter shows the standing of a real scholar, one who appreciates his facilities for learning in the high school. These two students are excellent types of young manhood and young womanhood, who have worked for the joy of learning and who have gained a high place in the esteem of their fellow students for their consistent and unselfish appliance to their real business here.

Appreciation

The members of the 1928 Royal Blue Staff wish to express their appreciation to the following: Mr. Fred S. Wiman of the Western Engraving and Colortype Company for his sincere interest for so many years in the Wa-Hi Annual; Mr. H. D. Eggers, of the Eggers Studio, for his interest not alone in the portraits, but also in fostering photography in Wa-Hi; Mr., R. J. Gibbons and E. W. Lanier, of the Inland Printing Company, who have done their utmost in promoting the 1928 Royal Blue; to the Roll Room representatives who carried on the campaign for the 1928 Annual; to the Student Body and to the clubs and organizations of the school which greatly aided the Annual; and to Miss Laura E. Boucher, who through her willing assistance has helped to make the 1928 Royal Blue a success.

Notwithstanding a few defects, the Wa-Hi debate team went through a successful season in 1927-1928. State debates were scheduled with Dayton, Palouse, Pomeroy and Albion, but due to flood conditions the debate with Albion was cancelled. Dual debates were also held with the Wranglers Club of Whitman College and Yakima High school. The question for state debate this year: "Resolved: That the President and Vice-President of the United States should be elected for a single term of six years," was debated throughout the season by the team as well as the inter-class debaters.

Adviser—Mr. Bireline

We can look back upon the past year with considerable pride. A much larger nnumber of our high school students have been consistent savers. A more thoughtful and determined attitude has prevailed toward thrift as a worth while goal. Our report for April 10, 1928, revealed sixteen 100 per cent home rooms and an average of 75 per cent of the student body depositing.

The success of our banking system was largely due to the untiring efforts of the officers, and the excellent cooperation of the several cashiers. We have now established the highest record since school banking was added to Wa-Hi activities.

MEN

Reserve Officers Training Corps

The Wa-Hi R. O. T. C. course of instruction is that prescribed by the War Department for all junior units, except that it is adapted to local conditions. Moreover, it is equivalent to the two year basic course of the senior division which is the one actually pursued by all college men enrolled for military training. Following is an outline of the course:

FIRST YEAR
- Infantry Drill Regulations
- Physical Training
- Rifle Marksmanship
- Military Courtesy
- Individual Infantry Equipment

SECOND YEAR
- Infantry Drill Regulations
- Physical Training
- Scouting and Patrolling
- Military Hygiene, Sanitation and First Aid
- Rifle Marksmanship
- Guard Duty
- Automatic Rifle

THIRD YEAR
- Drill and Command
- Map Reading
- Musketry
- Physical Training
- Rifle Marksmanship

From the government point of view the training has a two-fold purpose: First, to help qualify selected students for appointment as officers and to qualify others as non-commissioned officers, specialists or privates for service in our citizen army in case of a major emergency. Secondly, to supplement the educational resources and program of the school and incidentally give the student a training which will be of value to him in his industrial or professional career. Its object is not, by any stretch of the imagination to make professional soldiers out of high school boys or to militarize them.

The training is highly endorsed by the majority of our representative American educators as a valuable element in high school education in connection with such matters as leadership, character-building, health and even the intellect. They consider the most valuable part of the training is to be found in the opportunity it gives the cadet to develop the quality of leadership; this, because the chief end of our higher educational institutions is to turn out the leaders so necessary in our modern complex civilization.

Girls' Federation

First Semester		*Second Semester*
Nellie Rice	*President*	Gladys McLaughlin
Francis Fisher	*Vice-President*	Gertie Patterson
Alice Craig	*Secretary*	Kathrine Sherman
Margaret Herz	*Treasurer*	Jessie Kain

The purpose of the Girls' Federation is to create a spirit of co-operation and friendship among the girls of Wa-Hi.

Although the Federation is a new organization in the High School, it has proved its worth during the short time of its existence. Each year one hundred dollars is raised to help a worthy Senior girl attend college. Miss Anna Mae Gossman, Dean of Girls has been a great aid to the members of the Federation in everything they have attempted.

Girls' Council

First Semester		*Second Semester*

The purpose of the Girls' Council is to promote simplicity, modesty, good taste, and inexpensive clothing among the girls of Wa-Hi.

With this ideal in mind the members of the Council for 1927-1928 have tried to deal fairly with every girl in the school.

The members feel that they have had much success this year in carrying out Girls' Dress Reform. A great deal of this success is due to Miss Anna Mae Gossman, their adviser, who has given much aid by her willing advice.

PAUL PETERSON

MR. B. O. LONEY CONTINUES

By Paul L. Peterson

The following dialogue occured the other day between Pedro Santino and John Johnson, two applicants for citizenship: (The Swede spoke first)

"My nam is Yon Yonson and I ban in America bout sax year. On first time I go by Meenesota vere are also oder Swedes, but after a vile I finds out 'bout that railroad that Yim Hill built from San Paul to Pasefick, and I tank I like to kom out here. All time since den I vork in logging camp. Vell, last veek I try to get be citizen, but I not make it, although I answer efry question. Ven day ask vat I know about the Constitution, I say dat I know I haf a goot one for my boss he say so; and ven day ask vat I know about Vashington, I say dat I tank it ban purty goot state. But just the sam, day turn me down."

Then the Italian told his tale:

"When I come to America, I no wanta have fruit stand, so I go to Meechigan and work on automobiles car. But my broder Tony want me to come to Walla Walla and be gardner, so I come. When I try to get be citizen day aska me first "Who discover America," and when I say "Creestopher Colomba," day say "goot". Next day sa "Who first President," and I tell them "Uncle Sam." Day aska "Pedro, do you know anything about Lincoln?" and I tell them I know all about heem cause I work on that automobiles before I come West." Den day aska "Could you ever be President of this Unided Stades?" and I say "I tink so, but I no wanta; I got nice patch of onions. But that's all right, I'm sure you find a man somewhere who like to take the job." Now for why, I no get citizen bapers?

PARTY SYMBOLS

The Democrats chose a donkey for their trade-mark, because it is stubborn, hard to kill, and a good kicker; the Republicans chose the elephant because it is clumsy, can carry a large number of planks, and even conceal things in its trunk; but the Prohibitionists chose the camel solely because of its HUNCH-back, and the fact that it can go six weeks without a drink.

SPEAKING OF PITTSBURG

Just because they have the largest steel fabricating plant in the U. S. at Pittsburg, you mustn't thing that the propaganda they send out is likely to be fabrications.

Some folks hold it against Pittsburg for starting the first radio broadcasting station, but Carnegie's philanthrophy has made up for that blunder.

Talk about industrial supremacy! Pittsburg has the largest wire plant, the largest aluminum plant, the largest air-brake plant, and the largest food preserving plant, in the world. No wonder the town's slogan is "Watch Our Smoke."

Yes, Pittsburg sort of hogs first honors, but why shouldn't it, when one-fifth of the country's pig iron is made there?

RADIO TROUBLE DEPARTMENT

You are not likely to have much trouble with your batteries, if you know your A, B, C's.

For grid leaks, install a drip pan; for interference, instruct other members of the family to leave your set alone.

If your battery fails to recharge from the light socket, the trouble is not with the trickler, although you would naturally expect it to be tricky. Your battery is sulphated and you need a new jar of electrolyte. The batteryman at the Service Station will recharge your battery, and charge you. Money talks, as well as radios.

The world scarcely remembers Lief Erickson, yet a sharp tongued woman like Xantippe has classiced down through the ages. It is claimed that poor old Socrates was actually grateful to the committee from the Humane Society for bringing him the cup of poison hemlock. And we would hardly remember Diogenes if he hadn't pulled that cute lantern stunt in which he made the facetious remark about looking for an honest man. Recollect what a fuss we made about King Tut? Well when the diggers from the U. of Pennsylvania took the trouble to dig up a Rameses a thousand years older, the news hardly made a ripple, which proves that newspapers will hereafter keep mum on this mummy business.
